

New proposal from Kyowa Ltd!!!

**It is completely new bag sealing tape and give kindness to all end users with advantage**

**『Easy to open』 『Possible to re-close』**

**E**asy **C**lose **O**pen **T**ape

**Ecot Tape is the abbreviation of 『Easy Close Open Tape』**

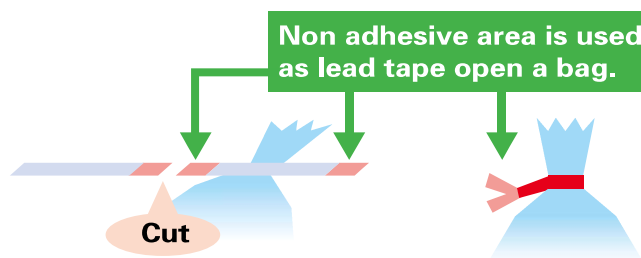

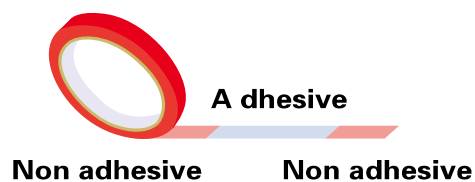

**Ecot Tape is made by the special adhesive process technology,  
easy to make the opening free to open and close.**

※ Special tool (Ecot packing machine)  
should be used when using the  
Ecot Tape.

## Structure of ECOT TAPE

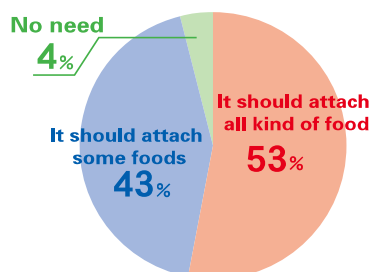

Adhesive is partly coated at intervals and a bag is closed at adhesive area. Non adhesive area is used as lead tape.

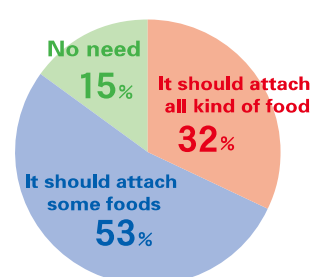

## Opinion from Customers

As a result of conducting a questionnaire survey to 400 general consumers (woman) about the bag closure of a food bag, it turned out that a large majority of consumers are asking for the function **“it can open easily by hand”** and **“it can re-close”**.

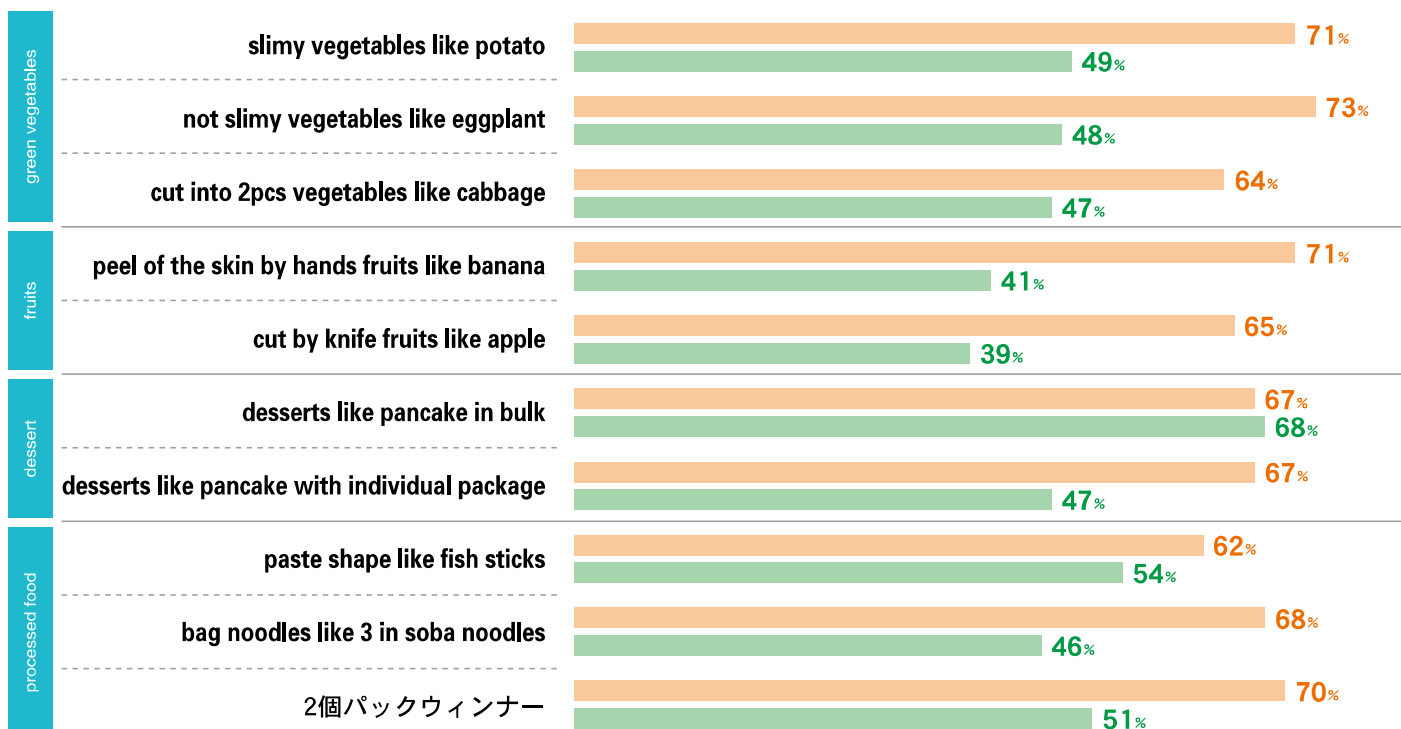

**Q.** Bag closure for the food in a poly bag  
Do you want it which  
**Can be opened by hand easily?**

**Q.** Bag closure for the food in a poly bag  
Do you want it which  
**Can be opened by hand easily?**

**Q.** Which kind of tape would you like in the 4 areas and 10 kinds of foods?  
**(tape that easy to open by hands) (tape that is able to reseal)**

**average 69%** (62%~73%)

■ tape that easy to open by hands  
■ tape that is able to reseal

※ find in our website

**almost 70% customers prefer the “tape that is able to reseal”**

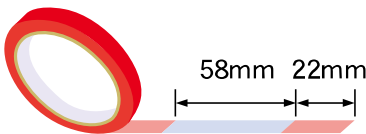

Ecot Tape specification

Size	PET#38 9mm×100m red	Qty	1roll plain color package 20RLs/inner carton 120RLs/outer carton
P / N	HZ-E091004		
emplast			

test item	measured value
total thickness	mm 0.060
Adhesive to the test board	N/10mm 2.7
back roll force in low speed	N/10mm 1.2
viscosity	N/10mm 6.4

※ the value is just measured value not guarantee value

The length of 1 segment about 80mm  
(with adhesive:about 58mm  
without adhesive:22mm)

Feature of ECOT TAPE

Easy to pick non adhesive area

No nees to use other bags to prserve and it is econom ical

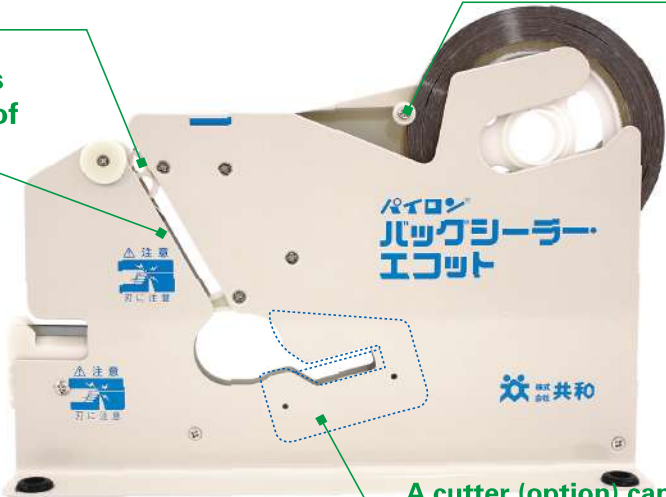

パイロン Bag Sealer ECOT

It is possible to distribute a tape with fixed length by stopping a sprocket in the regular position.

The ease of opening a tape is improved adopting the part of a leading tape.

A stopper to prevent from distributing a tape too much.

※ For 9mm width of ECOT TAPE  
Product Code :KB-912

A cutter (option) can be applied in the center part.  
An excessive portion of a poly bag can be cut in the operation linked with sealing a tape onto a poly bag.
